Strategy charge <sup>1</sup> (only applies to enhanced methods)	In exchange for a charge, the client receives an enhanced participation rate. The charge is deducted from the accumulation value allocated to the enhanced participation rate method at the end of each term, or at the time of a withdrawal in excess of the penalty-free amount, and is guaranteed to stay the same for the life of the contract. At the end of any crediting term, the client can elect to transfer values from the indexed account option to any available option.																					
Accumulation value (AV) true-up <sup>2</sup>	If total interest credited to the contract over the surrender charge period is less than the total strategy charges, AV true-up provides a one-time refund of the difference at the end of the surrender charge period. Not available if excess penalty-free withdrawals are taken. Total interest credited does not include any premium bonus.																					
Optional enhanced bonus rider (EBR) (EBR availability may vary by state. Rider cost is 0.95% of accumulation value at each contract anniversary during the surrender charge period.)	Enhanced premium bonus is available through the optional enhanced bonus rider (EBR) that can be elected at issue for an annual charge that is assessed during the surrender charge period.  For 10-year: 9% EBR premium bonus. For 14-year: 12% EBR premium bonus.  The base premium bonus and enhanced premium bonus are applied on all premiums received in the first three years. May be subject to premium bonus recapture*. Reference the product brochure for state specific details.																					

Sammons Financial® is the marketing name for Sammons® Financial Group, Inc.'s member companies, including North American Company for Life and Health Insurance®. Annuities and life insurance are issued by, and product guarantees are solely the responsibility of, North American Company for Life and Health Insurance.

Fixed index annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from the accumulation value for optional benefit riders or strategy fees or charges associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.

Insurance products issued by North American Company for Life and Health Insurance®, West Des Moines, Iowa. Product and features/options may not be available in all states or appropriate for all clients. See product materials and state availability chart for further details, specific features/options, and limitations by product and state.

The North American Charter® Plus is issued on form base contract form NA1007A/ICC16-NA1007A.MVA or appropriate state variation including all applicable endorsements and riders.

Withdrawals taken prior to age 59 1/2 may be subject to IRS penalties.

\* Premium bonus and enhanced premium bonus may vary by annuity product, premium band and surrender charge period selected and may be subject to a premium bonus and enhanced premium bonus recapture. Products that have premium bonuses may offer lower credited interest rates, lower index cap rates, lower participation rates and/or greater index margins than products that don't offer a premium bonus and enhanced premium bonus. Over time and under certain scenarios the amount of the premium bonus may be offset by the lower credited interest rates, lower index cap rates, lower participation rates and/or greater index margins.

1. Known as a strategy fee annual percentage in the contract. In exchange for the charge, an enhanced participation rate is received. The charge is multiplied by the number of years in the crediting term and is deducted once each term from the accumulated value allocated to the enhanced participation rate method. The charge will be deducted once each term at the earliest of any partial withdrawal that exceeds the penalty-free amount, a full surrender or the end of the term. The strategy charge will be deducted regardless of the interest credited to the contract and can lead to loss of premium in certain scenarios.

2. Known as guaranteed accumulation value true-up endorsement in the contract.

2. EBR can only be elected at product issue. Rider charge is 0.95% of accumulation value at each contract anniversary during the surrender charge period. This rider charge is considered a penalty-free withdrawal, and does not reduce the penalty-free withdrawal available to you. The rider charge, under certain scenarios, may result in loss of premium.
3. Enhanced Participation Rate includes a strategy charge for a higher participation rate and is known as a "Strategy Fee Annual Percentage" in the contract. The charge will be deducted once each term at the earliest of a full surrender, at the time of a partial withdrawal that exceeds the penalty-free withdrawal amount or the end of the term. The charge will be deducted from the accumulated value allocated to the enhanced participation rate method. The strategy charge will be deducted regardless of the interest credited to the contract and can lead to loss of premium. The annual charge is multiplied by two for the two year crediting strategy.
4. Withdrawals taken prior to age 59½ may be subject to IRS penalties.
