# Compare The Two Premium Bonus Rider Options

The Premium Bonus option selected affects key rate and liquidity features, helping to tailor the annuity to clients' goals. The table below highlights the features included with each Premium Bonus option.

Core Premium Bonus		Max Premium Bonus
Premium Bonus Percentage*	16%: issue ages 0-70 11%: issue ages 71-85	<b>22%: issue ages 0-70</b> <b>15%: issue ages 71-85</b>
Rates	Core Fixed, Cap and Participation Rates	<b>Higher</b> Fixed, Cap and Participation Rates
Free Partial Surrenders	10% of initial Premium annually, available at Contract Issue	10% of initial Premium annually, available at Contract Issue <b>PLUS cumulative carryover up to 20%.</b> Unused Free Partial Surrender Amounts from a given Contract Year can be carried over to the next Contract Year, up to the maximum cumulative Free Partial Surrender Amount of 20% for a given Contract Year.
Annual Product Fee	None	0.95% of the Accumulation Value, charged annually.** However, you are guaranteed to receive at least your initial Premium plus the Premium Bonus amount if you surrender the Contract any time after the Surrender Charge Period, even if no interest credits are applied.

Note: Annuities with certain features, including a Premium Bonus, may offer higher or lower parameters on applicable index options, such as cap and participation rates, than annuities that do not have these features. Over time, the amount of the bonus or other features may be offset by these different parameters.

\*Premium Bonus percentages are subject to change at any time prior to Contract Issue in the discretion of Revol One Financial. The rate declared in the Contract will not change. Please contact Revol One Financial for the most up to date terms, conditions and rates.

\*\*The Annual Product Fee is deducted on the first anniversary and every anniversary date thereafter. If surrender, annuitization or death occurs on any day other than the Contract Anniversary, a prorated portion of the Annual Product Fee will be deducted at that time. A prorated portion of the Annual Product Fee also applies to any partial surrenders taken during each year. The fee percentage is subject to change at any time prior to Contract issue in the discretion of Revol One Financial.

Guarantees are subject to the financial strength and claims-paying ability of Revol One Insurance Company and subject to the terms and conditions of the product. Surrender Charges may apply.

# Take Control Of Index Performance With The Index Lock Rider

## Locking in the Index Crediting Rate

There are 3 ways to lock in the crediting rate.

- 1 Manually lock in the current index crediting rate**  
Lock in the index crediting rate on the current date.
- 2 Set an Automatic Upper Lock threshold**  
Set an upper lock threshold that activates an automatic lock once the index value supports an index crediting rate at or above the threshold level set. For example, an upper threshold could be set to lock in the index crediting rate on the first day the index value supports a crediting rate of 10% or more.
- 3 Set an Automatic Lower Lock threshold**  
If the current index value supports a positive index crediting rate, clients can also set a lower lock threshold. This threshold automatically locks in the index crediting rate on the first day in which it would be at or below the threshold level set. For example, if the current index value supports an index crediting rate of 9%, a lower threshold could be set at 8% so the crediting rate locks on the first day the index value would produce an index crediting rate of 8% or less.

## Important notes

- The Lock may be exercised once per index strategy term for the Par Rate, Par After 5% and Par After 10% Index Strategy Options. Multiple Lock requests may be submitted; however, once the Lock is activated, no additional Lock requests may be made for that specific index strategy and term.
- Funds allocated to the Fixed, Cap Rate and Guaranteed Cap Rate index Strategy Options are not eligible to use the Index Lock Rider.
- Lock requests (Manual or Automatic) must be received by Revol One Financial in good order before market close (typically, but not always, 3:00 p.m. CT) to be effective that day.
  - Requests received after market close will be effective on the next market day.
  - Manual Locks activate on the day the request is effective.
  - Automatic Locks activate on or after the request effective date, when the lock terms are met. Automatic Lock requests may be canceled prior to activation and will expire at the end of the strategy term if not activated.
- Once a Lock is activated, the locked index value becomes the ending index value for the current index strategy term, cannot be changed and will be used to calculate the index crediting rate at the end of the term.
- The Lock is activated based on the closing value, not the intraday value. A Lock will NOT be activated if a threshold is reached intraday, but not at the close.
- For the next index strategy term, the beginning index value will be the actual index value at the end of the previous strategy term — not the locked-in value.

# Lock In Options Designed To Capture And Protect Index Gains

## Here's How it Works

### Manual Lock: 9% Index Return Secured at Month 9

In this hypothetical example, a Manual Lock is activated in Month 9 when the index crediting rate reaches 9%.

Once the Lock is set, the crediting rate for the entire term is based on the 9% rate, even if the crediting rate rises or falls in later months.

### Upper Lock: 10% Index Crediting Rate Secured After Index Rises

This option captures gains when the index rises to a predetermined target.

In this example, an Auto Upper Lock threshold of 10% is established in Month 9, when the lockable index crediting rate is 9%.

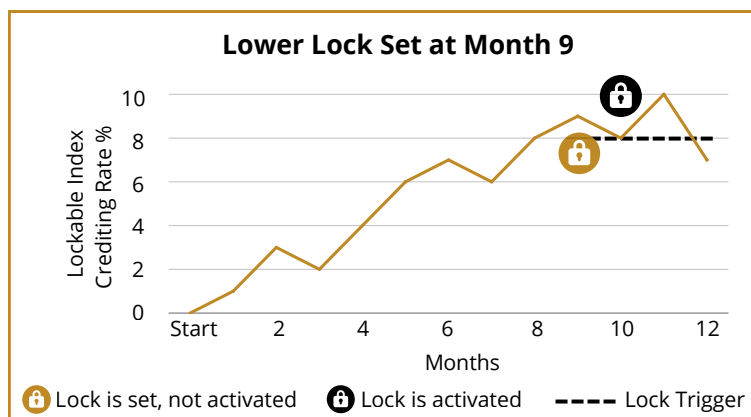

When the lockable index crediting rate increases to 10% in Month 11, the Lock activates automatically and the index crediting rate will be 10% at the end of the term, regardless of subsequent index movement.

### Lower Lock: 8% Index Crediting Rate Secured After Index Decline

This option protects gains during market declines. In this example, an Auto Lower Lock threshold of 8% is set in Month 9, when the lockable index crediting rate is at 9%.

When the lockable index crediting rate declines to 8% in Month 10, the Lock activates automatically and the index crediting rate will be 8% at the end of the term, regardless of subsequent index movement up or down.

These examples are hypothetical and for illustrative purposes only. It does not reflect the outcome of any actual person. Individual results may vary.

<sup>(6)</sup>**The Free Partial Surrender Amount** is equal to the Free Partial Surrender Percentage times the Initial Premium, less any prior Free Partial Surrenders made during the Contract Year. The Free Partial Surrender Amount will not be less than the amount necessary to satisfy any IRS Required Minimum Distributions for the annuity. If you select the Max Premium Bonus Option, any unused Free Partial Surrender Amount from the prior Contract Year can be carried over to the next Contract Year up to the maximum cumulative Free Partial Surrender Amount of 20% of Premium for a given Contract Year. If you surrender an amount more than this Free Partial Surrender Amount, you may be subject to Surrender Charges, Bonus Vesting Adjustments, and MVA. Surrenders of taxable amounts are subject to ordinary income tax and may be subject to a 10% federal income tax penalty if taken before age 59½.

<sup>(7)</sup>**The terminal illness and nursing home confinement benefits, and the Terminal Illness and Nursing Home Riders, are NOT long term care insurance or a substitute for such coverage.** These benefits may not be available in all states. Please contact Revol One Financial for more information, including requirements for the Nursing Home and Terminal Illness Riders.

<sup>(8)</sup>**Additional information about the Nursing Home Rider:** First confinement must begin on or after issue. We must receive the surrender request on or after the first Contract Anniversary along with proof satisfactory to us at the Administrative Offices either while the Contract Owner is confined or within 90 days after such confinement. Confinement in a Nursing Home must be prescribed by a Qualified Physician and must be Medically Necessary. The Contract Owner must have been the Contract Owner of the Contract continuously since the Issue Date, or a spousal Beneficiary who continued the Contract under the provisions in the Contract. For Contracts with Joint Owners or Joint Annuitants, the Nursing Home Rider is activated upon first instance of a Contract Owner, or Annuitant if the Contract Owner is not a natural person, being confined to a nursing home. State variations may apply. Please contact Revol One Financial for additional for details.

<sup>(9)</sup>**Additional information about the Terminal Illness Rider:** A Qualified Physician must certify to the Contract Owner's illness or injury and life expectancy, and that the Contract Owner had not been diagnosed with the terminal condition as of the date of issue. The Contract Owner must have been the Contract Owner of the Contract continuously since issue or a spousal Beneficiary who continued the Contract under the provisions in the Contract. For Contracts with Joint Owners or Joint Annuitants, the Terminal Illness Rider is activated when both Contract Owners (or Annuitants if the Contract is not owned by a natural person) are diagnosed with a terminal illness or the last surviving Contract Owner (or Annuitant) is diagnosed with a terminal illness. State variations may apply. Please contact Revol One Financial for additional details.

<sup>(10)</sup>**Additional Information About the Death Benefit:** Joint ownership is allowed provided the joint owners are spouses. Upon the death of the first spouse, the surviving spouse is required to continue the Contract.
