Enhanced death benefit

Prior withdrawals reduce benefit amounts. The **Enhanced Death Benefit Rider** is automatically included in the contract for no additional fee, which provides the Full Contract Value to beneficiaries at death. A beneficiary may choose to receive the death benefit in either a lump sum or any of the available payout options.

¹ Additional premiums must be contributed during the first contract year and may not exceed the \$1 million maximum without home office approval.

² The Premium Bonus Rider is optional. Contracts with a premium bonus will reduce index participation in addition to lowering crediting rates during the Surrender Charge Period as compared to contracts without a premium bonus. Premium Bonus is subject to Vesting. A portion of the bonus will be recovered with any withdrawal or surrender during the Surrender Charge Period except for penalty-free withdrawals. Bonus does Vest upon death. See Product Disclosure for details.

Enhanced crediting options

By selecting an Enhanced crediting strategy, annuitants are able to increase participation in that specific strategy. A 0.95% fee will be applied to the total amount of money allocated into enhanced strategies and is assessed annually at the beginning of each contract year.

Optional rider package

The **Enhanced Liquidity Package**³ is available at the time of application. It is not available with election of the Premium Bonus Rider.

- ♦ **Enhanced Liquidity Rider:** If no withdrawals were taken in the prior contract year, the Enhanced Liquidity Benefit Rider allows for the penalty-free withdrawal amount to increase to 10% of the Contract Value. It also reduces the waiting period from one year to 30 days. This provision effectively allows unused penalty-free withdrawal benefits to be carried over for one year.

³ The Enhanced Liquidity Package includes the Enhanced Liquidity Rider and Enhanced Benefit Rider, which cannot be purchased separately. Election of the Package will reduce index participation in addition to lowering crediting rates during the Surrender Charge Period.

Optional rider package (cont.)

- ♦ **Enhanced Benefit Rider:** In the event you are (a) diagnosed with a terminal illness that is expected to result in death within one year or (b) continuously confined in a qualified nursing care facility for at least 90 days, the Enhanced Benefit Rider allows you to access your funds after the first contract year without paying Surrender Charges or an MVA.

Surrender charge schedule

Any amount in excess of the penalty-free withdrawal amount that is withdrawn will be subject to a Surrender Charge during the Surrender Charge Period. The Surrender Charge is calculated based on the contract year during which the withdrawal or surrender occurs and is a percentage of the withdrawal or surrender amount. There is no waiver of Surrender Charges for annuitization. During the Surrender Charge Period, the Cash Surrender Value may be applied to an annuity option. Surrender Charges may differ by state.

Surrender Charge Schedule										
	1	2	3	4	5	6	7	8	9	10
10-Year	9.0%	8.0%	7.0%	6.0%	5.0%	4.0%	3.0%	2.5%	1.5%	0.9%
7-Year	9.0%	8.0%	7.0%	6.0%	5.0%	4.0%	3.0%			
5-Year	9.0%	8.0%	7.0%	6.0%	5.0%					

Market Value Adjustment

An MVA will apply to any full surrender or partial withdrawal that exceeds the maximum penalty-free withdrawal during the Surrender Charge Period. Depending on the direction interest rates move, the MVA may increase or decrease benefits available under the contract. Generally, if interest rates rise after the beginning of the Surrender Charge Period, the MVA will decrease the surrender value. If interest rates have declined, the MVA will increase the surrender value. The MVA is waived whenever Surrender Charges are waived.

Minimums

Minimum surrender and withdrawal amount: \$100
Minimum account balance after surrenders and withdrawals: \$2,000

Please refer to the Farmers Harvest® FIA Consumer Brochure and Harvest® Annuity Disclosure (Contract Form No. ICC23-FLIC-FIA) presented with this fact sheet. The Disclosure explains this annuity in detail.

Withdrawals of earnings will be subject to income tax and may be subject to a 10% IRS penalty tax if taken prior to age 59½. An annuity contract may be purchased on a non-qualified basis or for use within certain qualified retirement plans or arrangements that receive favorable tax treatment. Many of these qualified plans, including IRAs, provide the same type of tax-deferral as provided by an annuity contract, and the annuity contract does not provide any additional tax-deferral benefit. An annuity contract, however, does provide a number of other benefits and features not provided by such retirement plans or arrangements alone. Consult with a qualified tax and/or financial professional regarding the use of an annuity contract within a qualified plan or in connection with other employee benefit plans or arrangements.
